CLOUD PROVIDERS
AMAZON AWS
MICROSOFT AZURE
LINODE
DIGITAL OCEAN

KALI LINUX

- Linux Distribution based on Debian.
- Made for hackers.
- Contains lots of hacking tools.

→ This is going to be **the hacker machine.**

WHY LEARN ABOUT THE CLOUD?

1. Understand how websites work.
2. Understand how cloud services work.
3. Run **own** website / cloud services.
4. Run own **hacking** services.
5. Host your own **hacking machine** on the cloud.
6. Run **resource-intensive** tasks.
