

Below are cmdlets and parameters associated with the settings shown in the video. Remember, you can find more information about these commands on Microsoft's website:

<https://learn.microsoft.com/en-us/powershell/module/teams/?view=teams-ps>

These options are unavailable within *Microsoft Teams Admin Center*

Note: Some Microsoft Teams cmdlets use the Boolean values *\$true/\$false* or *Enabled/Disabled* in PowerShell:

*\$true* or *Enabled*: Indicates that a setting or feature is On.

*\$false* or *Disabled*: Indicates that a setting or feature is Off.

```
PS C:\Users\Lalo> Get-CsTeamsIPPhonePolicy -Identity OurLabDemoPhones

Identity           : Tag:OurLabDemoPhones
Description        :
SignInMode         : UserSignIn
SearchOnCommonAreaPhoneMode : Enabled
