Tasks

- Configure SNR for Site C Phone 1 so that anyone calling to 4001 the call should ring the Site C PSTN Line 70054000 after 10 seconds and ensure you are able to toggle Mobility ON and OFF from Site C Phone 1.

Configuration: [Click to collapse](#)

R3 - Site C

```
ephone-dn 1 octo-line
  mobility
  snr calling-number local
  snr 970054000 delay 10 timeout 15
!
ephone-template 1
  softkeys idle Redial Newcall Cfdall Mobility Pickup Gpickup Dnd Login
  softkeys connected Hold Endcall Trnsfer Mobility Confrn Acct Flash Park
!
ephone 1
  reset
```

Verification

From Site C Phone 2 dial 4001 pick up the call and then send the call to the PSTN using the Mobility softkey.

From Site C Phone 2 dial 4001 and after 10 seconds check if the Site C PSTN Line rings. Answer the call and then resume it from Site C Phone 1.
