Tasks

- Enable Authentication from the same AD server using the same search base as above.
- Verify that this works by logging out of <https://clus1-ucm-pub/ccmadmin> (<https://clus1-ucm-pub/ccmadmin>) and logging in to <https://clus1-ucm-pub/ccmuser> (<https://clus1-ucm-pub/ccmuser>) using the password **C1sc0123** for user **amarie**.

Configuration: [Click to collapse](#)

HQ – Publisher

System > LDAP > LDAP Authentication

The screenshot shows the 'LDAP Authentication' configuration page. At the top, there is a 'Save' button. Below that is a 'Status' section showing 'Status: Ready'. The main configuration area is divided into two sections: 'LDAP Authentication for End Users' and 'LDAP Server Information'. In the 'LDAP Authentication for End Users' section, the 'Use LDAP Authentication for End Users' checkbox is checked. The 'LDAP Manager Distinguished Name*' field contains 'admin@ine.com'. The 'LDAP Password*' and 'Confirm Password*' fields are masked with dots. The 'LDAP User Search Base*' field contains 'ou=universe,dc=ine,dc=com'. In the 'LDAP Server Information' section, the 'Host Name or IP Address for Server*' field contains 'ad.ine.com', the 'LDAP Port*' field contains '389', and the 'Use SSL' checkbox is unchecked. There is an 'Add Another Redundant LDAP Server' button below the server information fields. At the bottom of the configuration area, there is a 'Save' button.

Provide the user **amarie** with Standard CCM End User rights

The screenshot shows the 'End User Configuration' page. At the top, there are buttons for 'Save', 'Delete', and 'Add New'. Below that is a 'Status' section showing 'Update successful'. The main configuration area is divided into a 'User Information' section, which shows 'User Status' as 'Active LDAP Synchronized User'.
