What Bug You want to Report?

| Authentication Bypass | No-Rate Limit | XSS | CSRF | CORS |

Bug Bounty Reports Template

Hello Everyone, I have created Bug Bounty Reporting Templates for you.

Why waste time on making long reports when you can focus on finding vulnerabilities.

Go here - hacktify.in/bugbounty

Reports for all the types of vulnerabilities like XSS, CSRF, No RL, Auth Bypass & CORS have been made and uploaded for you.

Just click on copy and the report will be copied to your clipboard, paste it in a document and replace example.com with your own targets.

All the Best,

Rohit Gautam
