- Episode Name: Geolocation Recon

Geolocation Recon

Objectives:

- Employ satellite imaging, surveying, and mapping tools to discover geolocation info about a given target
- Analyze geolocation information to discover possible vulnerabilities

-
- Why do we care about the geographical location of a target?
 - Support our...
 - Social Engineering attacks
 - Knowledge of local 'haunts' and surroundings gives the attacker social credit
 - Physical attacks
 - Break/lunch/smoking areas
 - Cameras
 - Entrances/Exits
 - Gates/Guards
 - Good hiding spots
 - Demo
 - Google Maps
 - Wikimapia
