Inventory and Ranking of Critical Assets

Item Description				Location		Quantity and Value							
Name	Description	ID	Category	Dept. Name	Room No.	Date	Condition	Unit Value	Qty.	Model No./ Version	Serial No.	Photo/Info Link	Rank Critical Assets (High, Moderate, and Low)

High - Pertains to assets whose loss could impact mission-critical data and resources, potentially leading to severe business and financial repercussions.

Moderate - Pertains to assets whose loss could influence systems, functions, and services containing minor quantities of sensitive data.

Low - Pertains to assets whose loss could affect non-critical systems, functions, and processes that may be challenging to replace.
