

# DOCKER

---

*Docker Images Intro*

## *Docker : Docker Images*

---

- Complete Concept of Docker Images
- Build Docker Images
- Deploy Docker Images
- Docker Images Management
- Docker Hub Central Repository
- Manage Local Images

## *Docker : Docker Images*

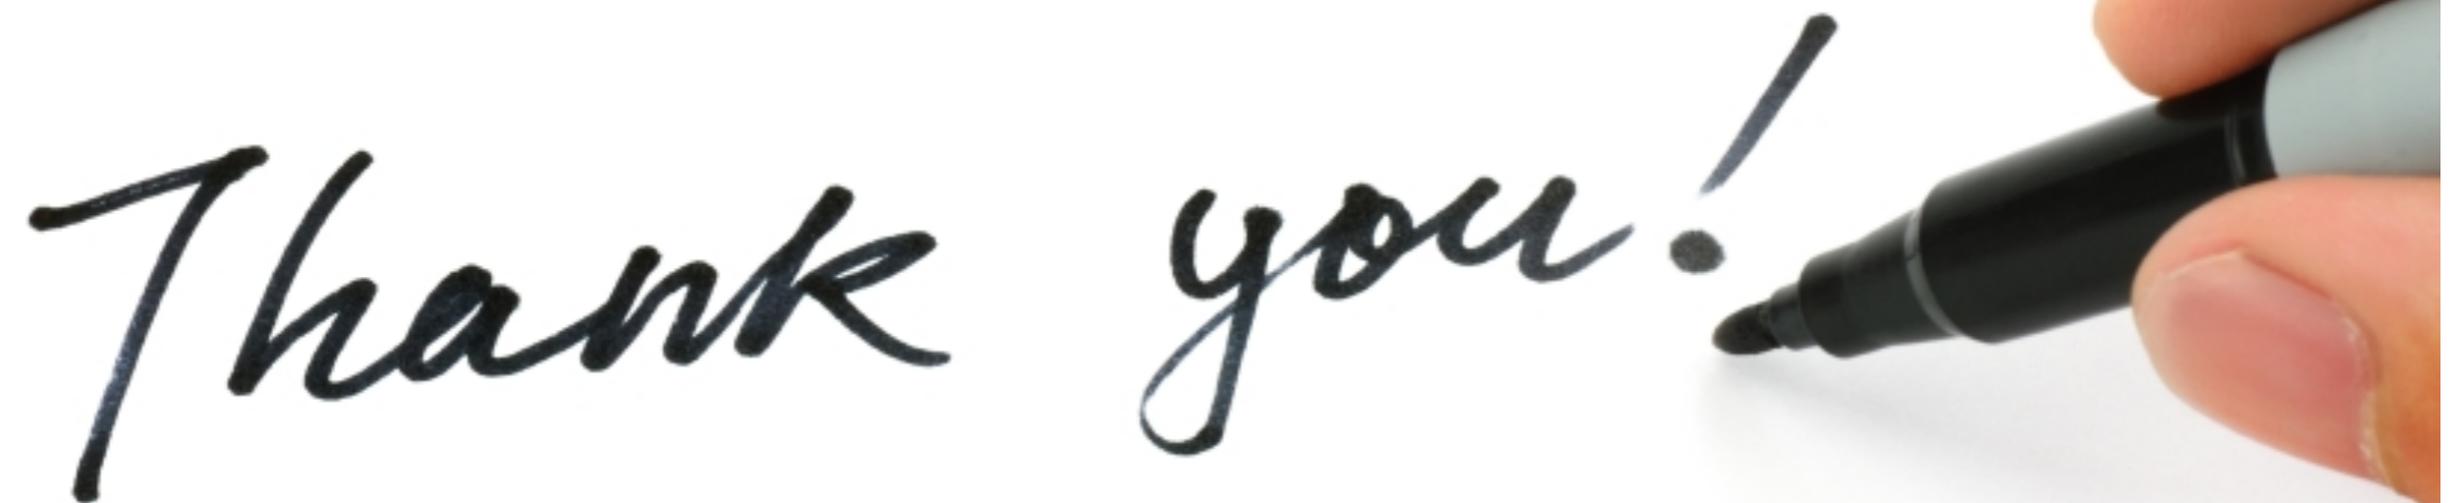

---

- In Docker, everything is based on Images. An image is a combination of a file system and parameters. Images contains the binaries and dependencies.
- Images Contains the data require to run the Image.
- List Docker Images  
`docker images`
- Images don't contains the OS, and OS packages.

*Will see you in Next Lecture...*

---

*Thank you!*

A close-up photograph of a hand holding a black marker, writing the words 'Thank you!' in a cursive script on a white surface. The hand is positioned on the right side of the frame, with the fingers gripping the marker. The text is written in a fluid, handwritten style.
