

DOCKER

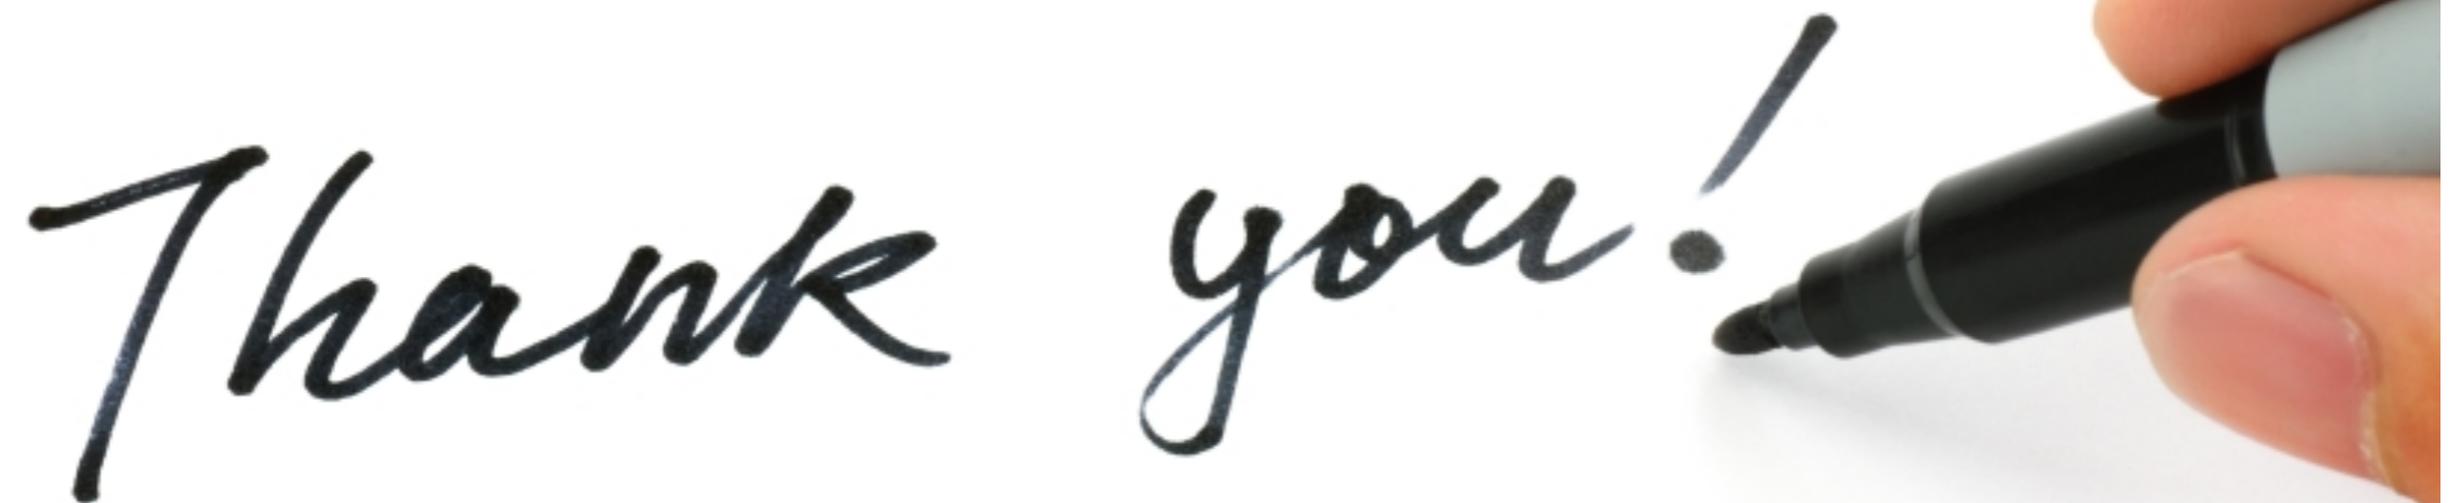

Assignment Answer: Docker Images

Docker : Build Docker Images

- Create Docker File by own.
- Get the latest python image from Docker Repository.
- Write down a simple python program or get it from internet.
- Run Python Program inside the Container.
- Tag and Push the Image to Docker Hub.
- Remove Image from Local and Again execute it from Hub.

Will see you in Next Lecture...

Thank you!

A close-up photograph of a hand holding a black marker, writing the words 'Thank you!' in a cursive script on a white surface. The hand is positioned on the right side of the frame, with the fingers gripping the marker. The text is written in a dark, fluid cursive style. The background is plain white.
