

## 5.2 Secure SSH

---

- ▶ Secure Shell.
  - Remote access , Execute command, Copy files over network
- ▶ Used instead of (rlogin,rsh,rcp)
- ▶ Port 22
- ▶ `/etc/ssh/sshd_config`

# Public Key Authentication

The background image shows a person from behind, sitting at a desk in a modern office or study. A large window with a grid pattern is in the background, letting in bright light. The entire image has a warm, orange-yellow tint. The text 'Public Key Authentication' is centered in white.

# Thank You!
