# Infested Simple DOXing Guide

Infested Terran

This is a FREE ebook.

There are many ways to get the DOX of someone, but here's what I do. It is very simple, but it gets the job done.

Start with a name. Acquire your victim's first and last name. A good place to find this is their Facebook or any other account they have.

If you only have a username/gamertag/screenname, go to

<http://www.spokeo.com/username-search>

Enter their username and search for their Facebook.

Go to

<http://www.zabasearch.com/advanced.php>

and enter as much information about your victim as you can. If your victim is under 18 years old, you will need to search for their parent.

Try to find their parent on Facebook, or just search their last name using as much information as possible.

If you are lucky, there will be only a few search results.

If you are uncertain of which result to choose, reconfirm the phone number here

<http://www.spokeo.com/reverse-phone-lookup>

If you are able to get their IP, you can confirm their approximate location here

<http://www.ip-address.org/lookup/ip-locator.php>

There you go!

That's my simple guide of DOXing. It isn't as intricate as paid guides, but it will surely help you if you do not know where to start when DOXing.
