

Spreading Guide By THEASSASIN

Introduction:

In this e-book , I will show you how to spread your virus.

What you need:

- a **FUD** server
- a brain
- different accounts (you will know which later)

Structure of the guide:

- 1:Spreading via **torrent**
- 2:Spreading via social **social engineering**
- 3:Spreading via **Youtube**

1: Spreading via torrent:

For spreading via torrent is a good binder required.

The easiest way of doing this is too download popular torrents.

A way of finding out which torrents are popular at the moment, is for example:

<http://thepiratebay.org/top/all>

1:Choose one and download it

2:bind your virus to it

3:upload to different torrent sites

The most **popular** torrent tracker (public):

- **[Kick Ass Torrents.com](http://KickAssTorrents.com)**

- **Torrent Funk**

- **Isohunt.com**

- **thepiratbay.org**

- **btjunkie.org**

- **(Demonoid) /It is a private tracker so you need a invite**

- There are **many** more! You can visit

http://netforbeginners.about.com/od/peersharing/a/torrent_search.htm

What is important?

- find seeder for your torrent
- write a detailed description
- use pictures

2: Social Engineering

This one is my favorite way of spreading.

You have to play with the people's **dreams and wishes**.

There are many ways to do this. Most important is to be **creative**.

I will show you two as an example now.

Gaming:

(There is a high chance of getting steam accounts)

There are a lot of gaming forums in the web.

Try to upload your virus as a game mod or patch.

<http://www.fallout3nexus.com/>

<http://www.dragonagenexus.com/>

Chatting :

Use websites like <http://www.321teenchat.com/>

Write them that you want to chat with them.

Find out what they like. Finally send them your link.

3: Youtube.com

1. make about 10 copies of your virus

2. rename them to:

- World of Warcraft GameCard Generator
- Runescape PIN Generator
- Steam Game Adder
- Facebook password finder
- Zynga Poker Chips hack
- Cabal online BOT
- World of Warcraft auto levler cheat
- Software Cracker
- Rsbots auth generator
- Microsoft Serial Generator
- Counter Strike Source Hack
- World of Warcraft GameCard Generator

- Free accounts
- WOW bot
- Steam account cracker

3:You can leech videos from “Youtube.com” or make you own videos with “camstudio” for example.

4:If you chose to make your own video,you have to download fake apps or make your own with “Visual Basic”. (all can be found on “Hackforums.net”)

5:Upload your video and write a good description.
(mention how you get the app)

6:Ask in different forums if they can vouch your video.
